## 04 Butte-Glenn Adult Education Consortium

### Plans & Goals - Consortium Approved

#### Executive Summary

The Butte Glenn Adult Education Consortium helps adults learn the basic academic and work readiness skills needed to become employed and increase their career opportunities. Through our network of participating school districts, educational providers, workforce development, and human services organizations, we connect adults in Butte and Glenn Counties to educational programs that meet employer needs, enabling our students and our region to grow and thrive. During the 16-17 fiscal year the consortium grew its ABE, ASE, Basic Skills and ESL offerings to under-served location by opening a new location in Chico, CA and expanding it's HSD/GED program in Paradise, CA. The consortium grew its shorter term CTE offerings to include construction pre-apprenticeship, forklift training, and expand health occupations, all leading to jobs for students. In 17-18 and now 18-19 the consortium will continue to maintain the growth markets that it implemented on inception of the consortium.

#### Regional Planning Overview

The Butte Glenn Adult Ed consortium will leverage existing 18-19 quarterly meetings to organize and plan for the next 3-year plan in May/June of 2019. If by the March meeting it is determined that additional time is needed to plan, a special meeting will be added to the calendar (open to the public) to complete the planning process. If additional/current data is needed to support the planning process the consortium will look to the WDB and Regional Strong Workforce plans to provide data. The consortium will also review any supporting documentation (ie. regional demographic sheets) provided by the CCCCC.

## Fiscal Management

**A narrative justifying how the planned allocations are consistent with the annual adult education plan which is based on your AEBG 3-year plan.**

The AEBG 3-year plan added new program sites and faculty to expand courses. These are ongoing costs and will be funded with 18-19 planned allocations. Any additional funds generated through the COLA that are not immediately absorbed by site COLA will be invested in program growth in the allowable AEBG service areas.

**An approach to incorporating remaining carry-over funds from prior year(s) into strategies planned for 2018-19.**

Carry-over funds not already encumbered will be used to market regional programs and support existing programs that align with AEBG regional plan.
